TECHNICIAN'S EVALUATION AND RECOMMENDATIONS

Lifetime Limited Warranty

Installation of New Garage Doors. For installation of a new garage door, this warranty covers defects in workmanship, for labor furnished by the Precision Door Service Franchisee as part of the installation of the new garage door for the term indicated by the specific warranty associated with each item on the invoice from the date of installation. The garage door manufacturer provides its own separate warranty to you for the door and its parts. This warranty, at the determination of the Precision Door Franchisee, may also cover defects in parts over and above the manufacturer's warranty as indicated in the specific warranty associated with each item on the invoice. The Precision Door Service Franchisee will correct any defective workmanship and if a part is covered by this or the manufacturer's warranty, the Precision Door Service Franchisee will repair or replace that defective part, at no charge for labor, or parts if indicated, for the term indicated by the specific warranty associated with each item on the invoice from the date of installation. Service charge may apply. Please note: If the specific warranty associated with each item on the invoice is left blank, the warranty defaults to a 90 day warranty period.

Repairs. For a repair to an existing garage door, this warranty covers any defects in materials or workmanship, including installation, for parts furnished by the Precision Door Service Franchisee as a part of the repair. The Precision Door Service Franchisee will repair, or if repair is not possible, he/she will replace any defective part or workmanship at no charge for parts and/or materials. Refer to the term indicated by the specific warranty associated with each item on the invoice. A service charge may apply.

How Long Coverage Lasts

This warranty begins when repairs or any installation are complete. This warranty cannot be transferred. The warranty terminates if the original customer sells or no longer owns the repaired or new garage door. For a new garage door installation or repairs to an existing door, the labor warranty is for the term indicated by the specific warranty associated with each item on the invoice from the date of installation or repair.

What Is Not Covered

If anyone other than the authorized Precision Door Service Franchisee, who performed the original service work on any new or repaired part covered by this warranty, then that part and the labor to repair or replace that part is no longer covered under this warranty. For new garage door installations, see the manufacturer's warranty for what is not covered under its warranty.

This warranty does not cover any materials or workmanship provided by anyone other than the authorized Precision Door Service Franchisee issuing this warranty. This warranty does not cover consequential or incidental damages, such as damage or injury to a person or property because a garage door did not operate properly. Some states do not allow the exclusion or limitation of incidental or consequential damages, so this limitation or exclusion may not apply to you.

This warranty does not cover doors in which the door cables are displaced, misaligned or disconnected. This warranty does not cover problems caused by abuse, misuse, civil disturbance or Acts of God and does not cover commercial door installation or repair.

How To Get Service

If you have a problem, contact the Precision Door Service Franchisee that performed the repair or installation work for you.

How State Law Applies

This warranty gives you specific legal rights, and you may have other rights that vary from state to state.

This invoice is your receipt and must be presented before warranty work will be provided. It is not the responsibility of the Precision Door Service Franchisee to provide proof of warranty.
